Helicopter Adventures

Enhance your Kimberley experience by using the Lodges helicopter. Don't miss this opportunity to descend back in time to visit ancient rock art galleries, coast over an impenetrable jungle, soar above sites of historical and cultural significance, fish remote waterholes and enjoy lunch at a tranquil billabong whilst travelling in air-conditioned comfort. All flights are on a shared basis.

Ultimate Kimberley Adventure

A unique opportunity exists to be among the fortunate few to enter some of the greatest galleries of rock art in the world. Today's journey will take us coastal before heading inland across some true Kimberley country where we will land and take some time to tour these galleries. Our next destination is one of the most majestic waterfalls in the region the King George Falls. Ascending above the falls, take the opportunity to capture some aerial shots of this beautiful destination. As we journey to the mouth of the river, be amazed at how millions of years of erosion have carved the deep gorge, which embraces this river guiding it to the sea. Keep an eye out in search of Jabiru, turtles, crocodile and may even encounter a rare glimpse of the elusive Dugong. Our next port of call will have us landing right next to a picturesque waterhole, enjoy a refreshing cool off from the Kimberley sun and a cold beverage. This flight is jammed packed and our most popular.
